

# The Action Plan

## Structure and approach

**Susanne Altvater**  
Ecologic Institute/Federal Ministry for the Environment

**- Action Plan -**  
**Provides the operational basis for implementing  
the Strategy and influencing policies,  
programmes and regulations**

## 1. Knowledge and information sharing

- Increase knowledge and information sharing
- Applied research on adaptation measures  
(Research needs in impact assessments)
- Provision of information and dissemination

## 2. Macro-regional implementation

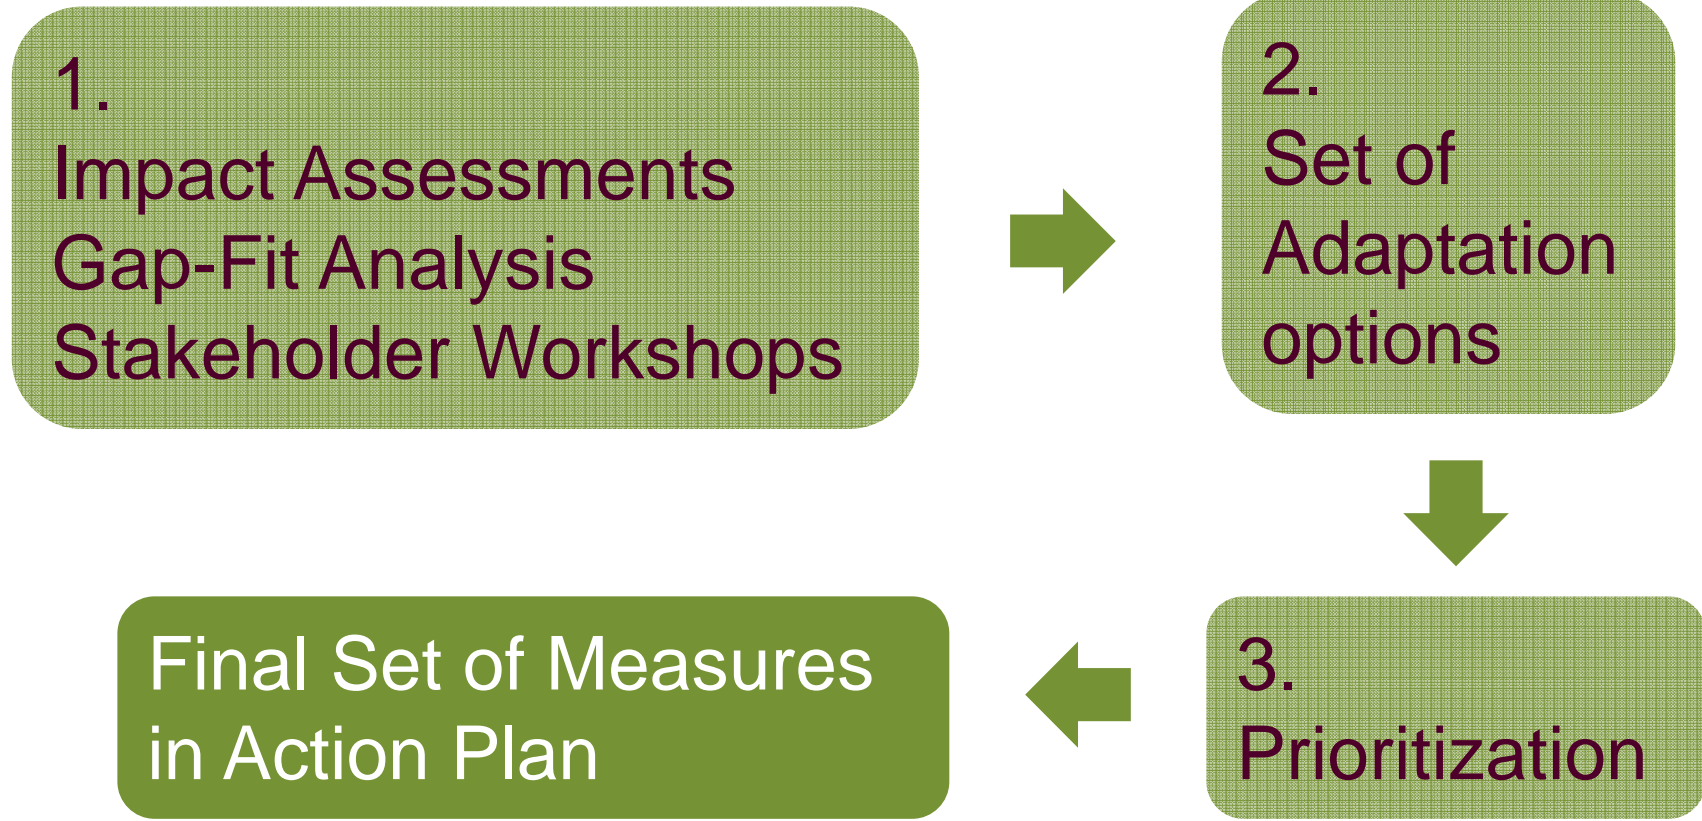

- Legislative and regulative instruments
- Plannings instruments

Both horizontal and sectoral

Governance analysis, stakeholder workshops

## 3. Adaptation measures for each focus topic

Tourism/Food/Infrastructure/Biodiversity

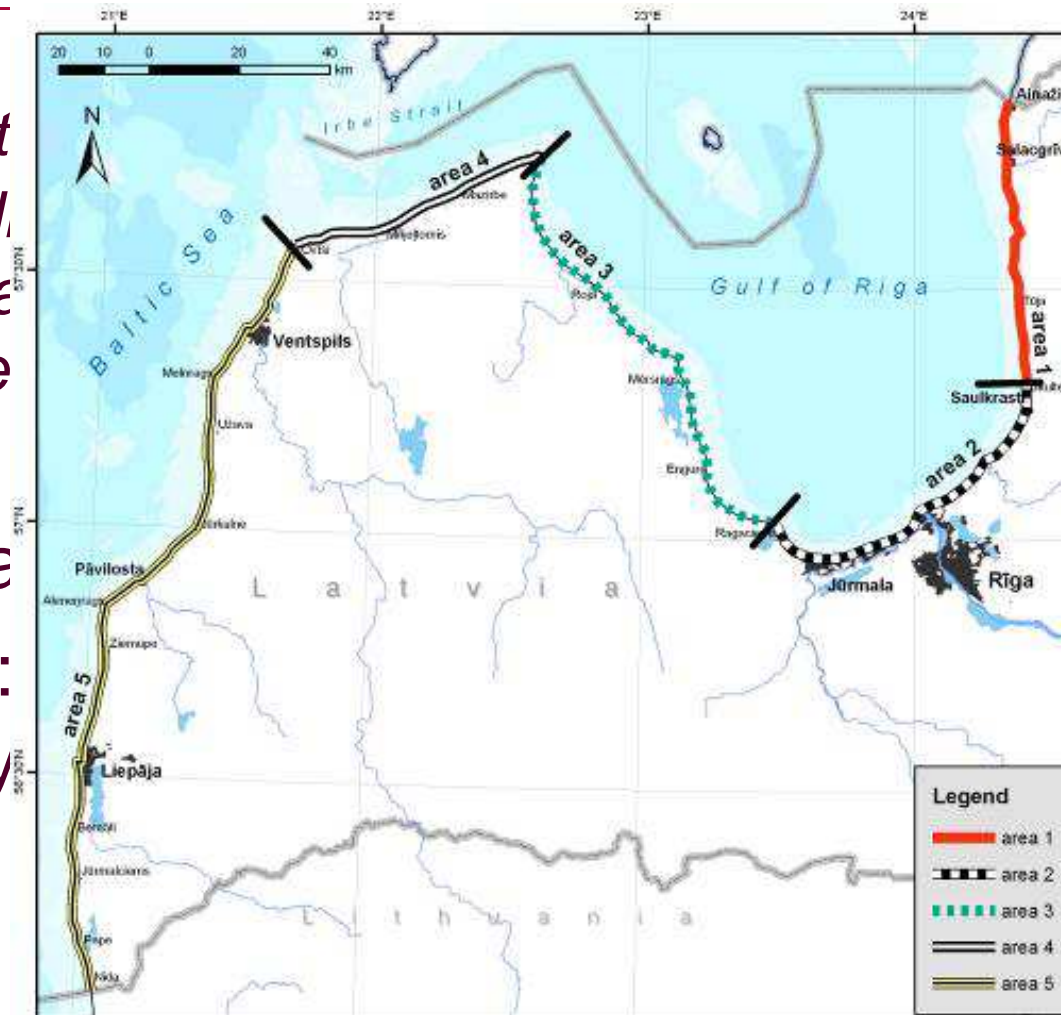

balt adapt

# Good-practice examples - Infrastructure

“Development of coastal real estate, vegetation and soft measures”

- Germany
- Latvia: priority

al resilience: techniques, n of hard

asures by

**Baltic Sea Region**  
Programme 2007-2013

Part-financed by the European Union  
(European Regional Development Fund)

## 4. Cooperation

- Transnational
- Between states
- Non-state actors
- Non EU-countries
- Between sectors and research

Workshop 1: **Experiences in multi-level governance in research, design and implementation of climate adaptation strategies**

## 5. Funding

- Sectoral and horizontal EU funding programmes

**Workshop during 3rd Policy Forum**

## Annex

### A) Documents and responsible authorities for climate adaptation

- Governance analysis
  - Countries
  - Sectors

# Priorization poll

Main Impact	Measures	Evaluation criteria		Value	Weight	Result (value x weight)	
e.g. Sea-level rise	e.g. Dike increase	Importance/Effectiveness	<b>LEGEND</b>  <b>Value of evaluation</b> 0 no 1 low 2 medium 3 high 4 very high		3		
		Urgency		3			
		Flexibility		1			
		No-regret		2			
		Side effects		2			
		Cost-efficiency		2			
		Feasibility		3	Technical Feasibility	3	
				1	Acceptance	1	
				1	Practical Feasibility	1
