

To whom it might concern,

Stockholm, June 2013

Dear Sir/ Madam,

We wish to invite you to the conference “Cornerstones for the sustainable waste management in the Baltic Sea region“ in Minsk on 17th of October 2013 – the final conference of the RECO Baltic 21 Tech project.

The aims of the conference are:

- To provide an overview of current developments in municipal waste management systems and elaborate on the future possibilities in the Baltic Sea Region.
- To harmonise the approaches towards further waste management developments/investments by reflecting the results of the project.
- To exchange knowledge and experience about the best practices already adopted and planned for the management of municipal waste in the region

At the conference the outputs from the project will be presented and put into its context. We will also have interesting presentations from outside the project all strengthening the knowledge on how to reach a sustainable waste management.

All information, such as agenda and registration form (including information on how to apply for Visa) can be found at [www.recobaltic21.net](http://www.recobaltic21.net)

I hope to see you in Minsk.

All the best,

Åsa Stenmarck, Project Manager, RECO Baltic 21 Tech
