HORIZONTAL ACTION CLIMATE:

LOW EMISSION ECONOMY
& CAPACITY TO ADAPT
TO A CHANGING CLIMATE

FOCUS AREA: CLIMATE ADAPTATION

HA Climate is supporting the Baltic Sea Region capacity to adapt to a changing climate by:

Developing a more robust evidence base on the impacts and consequences of climate change – a [Baltic Sea Region Climate Inventory](#)

Raising awareness of the need for action through capacity building on a local and regional level

Initiating Baltic Sea Region [climate forums in a policy-science-business](#) set-up on climate adaptation

FOCUS AREA: LOW EMISSION DEVELOPMENT

HA Climate is supporting the Baltic Sea Region's transformation into a low emission economy by:

Establishing a [strategic dialogue](#) between governments for supporting the development & implementation of national low emission policies

Promoting climate resilient and resource efficient solutions

Accelerating the transition to a circular economy

Stimulating green public procurement

Supporting Low Emission Development (LED) [research cooperation](#)

[Raising public awareness](#) on climate change and low-emissions lifestyles

COORDINATION: BALTIC SEA REGION CLIMATE DIALOGUE PLATFORM

The platform brings together public policy decision-makers, researchers and experts to exchange information as well as to support development and implementation of EU and national climate policies and advance joint actions in the region.

All BSR countries, the research community, as well as the European Environment Agency are involved in the work of the platform.

THE CLIMATE DIALOGUE IS SUPPORTED BY:

- Flagship projects
- Studies and analyses
- Leadership programmes
- Seminars and workshops
- Information tools and web resources
